(Z) – Annual rate of change not shown where less than 0.1 percent.

N.A. – Not available.

[1]Because of revised procedures developed by the U.S. Bureau of Labor Statistics, the employment data presented here are not comparable to previously published estimates. Furthermore, years prior to 1975 are not available.

[2]Adjusted to place-of-residence.

[3]Place-of-work basis.

[4]Percent of civilian labor force.

[5]Labor area data will not add to state total because area estimates are calculated independently of the state estimate. Also, data for the state include LeFlore and Sequoyah Counties in Oklahoma as part of the Fort Smith SMSA.

[1]"Covered" employment is employment subject to Arkansas Employment Security Law when an employer has one or more employees in each of 10 days during the current or preceding calendar year. Employment excluded from coverage includes agriculture, self-employed, unpaid family workers, interstate railroads, domestics, insurance and real estate agents who are on commission only and employees of churches and religious organizations, except schools.

[2]Starting in July 1973, state employment was brought into Arkansas' "covered" employment program, and in 1978 coverage was extended to city and county government employment (including public school employment). Thus, the 1980 and 1981 data are not comparable to the 1960 and 1970 statistics.

[3]State total includes data from employers who do not provide a county breakdown of employment and payrolls, data of sales and other types of personnel with no permanent place of work, and employment data of employers with no established place of business in Arkansas. Hence, county totals will not equal state totals.

[1]"Covered" employment is employment subject to Arkansas Employment Security Law when an employer has one or more employees in each of 10 days during the current or preceding calendar year. Employment excluded from coverage includes agriculture, self-employed, unpaid family workers, interstate railroad, domestics, insurance and real estate agents who are on commission only and employees of churches and religious organizations, except schools.

[2]State total includes data from employers who do not provide a county breakdown of employment and payrolls, data of sales and other types of personnel with no permanent place of work, and employment data of employers with no established place of business in Arkansas. Hence, county totals will not equal state totals.

Sources: Arkansas Department of Labor, Employment Security Division, *Arkansas Average Covered Employment and Wages by Industry and County*, Annual Issues, *1960* and *1970; Arkansas Average Covered Employment and Earnings by Industry and County*, Annual Issue, *1980;* and *Covered Employment and Earnings, Arkansas, 1981* (Little Rock).

[1]"Covered" employment is employment subject to the Arkansas Employment Security Law when an employer has one or more employees in each of the 10 days during the current or preceding calendar year. Employment excluded from coverage includes agriculture, self-employed, unpaid family workers, interstate railroads, domestics, insurance and real estate agents who are on commission only and employees of churches and religious organizations, except schools.

[2]Starting in July 1973, state employment was brought into Arkansas' "covered" employment program, and in 1978 coverage was extended to city and county government employment (including public school employment). Thus, the 1980 and 1981 data are not comparable to the 1960 and 1970 statistics.

[3]State total includes data from employers who do not provide a county breakdown of employment and payrolls, data of sales and other types of personnel with no permanent place of work, and employment data of employers with no established place of business in Arkansas. Hence, county totals will not equal state totals.

[1] Data for 1972 and 1977 are not strictly comparable to 1967 data due to revisions in the Standard Industrial Classification manual. Electrical supply stores, plumbing and heating equipment dealers; farm equipment dealers; and parts of hay, grain and feed dealers and farm supply stores were classified in wholesale trade in 1972. Comparable data are available for states and standard metropolitan areas based on the 1967 Standard Industrial Classification.

[2] Estimates by Sales and Marketing Management, Inc., New York, New York based on updates from the 1977 Census of Retail Trade benchmarks.

[3] Revised state total.
